## **AutoCAD Crack + With Product Key Download 2022 [New]**

AutoCAD for Mobile was first released in October 2013, offering 2D and 3D (2.5D) sketching, 2D drafting, and data import and export capabilities. AutoCAD Web App was introduced in April 2014 as a web-based mobile version of AutoCAD, enabling drafting and data creation to take place on any device with a web browser. A Quick Guide to AutoCAD for Mobile AutoCAD for Mobile offers 2D and 3D (2.5D) sketching, 2D drafting, and data import and export capabilities. You can use AutoCAD's mobile version of AutoCAD on any mobile device that has the capability to run web apps. You can make sketches on any mobile device, including tablets, smartphones, and feature phones. AutoCAD users can import and export their AutoCAD drawings directly to their mobile device using File Transfer Protocol (FTP). Any project or drawing created using AutoCAD for Mobile can be saved to your PC or laptop using FTP as well. AutoCAD Mobile offers two levels of access. There is an "Enhanced" version, which includes all the functionality and tools of AutoCAD for Desktop. This level of access gives you the ability to interact with your drawings using touchscreens, as well as to make sketches using your mobile device. There is a "Free" version that is restricted to basic sketching and plotting functionality. AutoCAD Mobile is available as a free download for Android smartphones and tablets. AutoCAD for Android, developed by Autodesk, is available in the Google Play Store. The AutoCAD App stores content within the AutoCAD application and on an iOS device, rather than within the AutoCAD Mobile website. Table of Contents Supported Devices Mobile devices can run AutoCAD Mobile. The devices that can run the AutoCAD Mobile web app and Android app are listed below. The app is available on Google Play Store for smartphones and tablets. AutoCAD for Mobile app currently available on Google Play Store for: Android phones (versions 3.1 and above) Android tablets (versions 1.6 and above) Windows Phone 8 (limited) Windows 8 (limited) iOS devices (iOS 7 and later) The app is not currently available for iOS 6 or below. We expect it to be available
